PROFILE

Code enthusiast with an emphasis on front-end development. Experience creating clean reusable code, best testing practices, and handling API requests. Up-to-date understanding of best styling practices and modern CSS libraries. Above all enjoys tough challenges and learning new things on the fly to achieve a goal.

SKILLS

- React - Javascript - HTML - CSS

EXPERIENCE

Sr. Courier, Fedex, Mississauga, Ontario — 2020 - Present

Being the person the customer sees and interacts with has helped me build strong interpersonal skills by listening and addressing any questions at the time of delivery. As a Sr. Courier, I have to be adaptable in covering new routes every day depending on who's sick or on vacation. as well as finding unique solutions to problems as they arise ensuring all the company's metrics are achieved.

CEO, moonlight — 2020 - 2022

Gained valuable experience in building an eCommerce website using Shopify's liquid template to create a unique storefront with the focus of the customer in mind. As well as building a better understanding of marketing and advertising by building a presence on social media with Instagram and Facebook.

PERSONAL PROJECTS

CV Creator, React / Tailwind — github.com/v-grillone/cv-creator

Use of DOM manipulation with the users inputs.

Weather App, Javascript / CSS — github.com/v-grillone/weather-app

Use of an Api to add functionality to the web app.

Check out some of my other work on my GitHub: github.com/v-grillone

EDUCATION

Humber College, Etobicoke, Ontario — Diploma 2016
